

Hello, I'm Marc Perrien

I design and build user interfaces

From 2019 to 2024, I worked as designer and lead front-end developer in a SaaS startup building a product that helped DevOps team evaluate the reliability and resilience of complex systems. I am now a front-end developer at Steeple

Steeple Since April 2025 **Front-end developer**

I'm part of a team building an internal communication SaaS tool, using VueJs and TypeScript. My missions also include code reviews, writing tests, and contributing to the design system.

Reliably 2019–2024 **Head of user experience**

I designed and built the user interface for the Reliably SaaS product, working alongside a team of back-end developers, using mostly Vue.js, TypeScript, HTML/CSS and REST APIs. Along the way, I also designed and built product websites.

Concept Image 2017–2019 **UX and marketing project manager**

I designed interfaces, organized user tests, and animated workshops for various clients of the agency.

Previously **Freelance WordPress developer and project manager**

Freelance work building websites for agencies or final clients.

Lendroit Éditions 2020–2023 **Board member**

Board member and interim president for an association promoting, editing, and selling printed art and artist's multiples.

Education ●

2005

Université Rennes 2 **Master of Arts**

Information & Communication

2002

Université de Bretagne Sud **Bachelor of Science**

Software Engineering

Skills ●

Front-end engineering
TypeScript, Vue.js, HTML/CSS,
Vitest, Astro.

Code versioning and CI/CD
Using GitHub and GitHub Actions

Interface design

Languages
Fluent in French
Proficient in English
